

The Right Fit For You.®

Risk-Based Monitoring (RBM) is a cross-functional approach to proactively identify and mitigate risk in study conduct. With expertise in centralized, risk-based data review and technologies to support adaptive monitoring, SDC is The Right Fit For You.

Benefits of Centralized Data Review

- › Continuous Review of Data, trends, and metrics to proactively identify potential issues
- › Focus on Subject Safety and critical data in real time to improve quality and mitigate risk
- › Reduce Study Travel Costs and Resources for transcription review while maintaining data integrity

RBM Expertise

- › Definition of Data-Driven Key Indicators for performance, risk, and quality (KPI, KRI, KQI)
- › Custom Configuration of EDC and IRT System for optimal RBM solutions tailored to your protocol
- › Independent, Remote Central Data Review designed by data experts to ensure data quality and integrity
- › Consultative Approach to advising clients on the best RBM strategies for their unique study needs

RBM Plan Development

9 out of 10 Average Customer Satisfaction Score

98% On-time Delivery of Key Project Milestones

350+ Clinical Trials Supported since 2005

The Right Fit For You.®

SDC is a specialized data services CRO providing scalable full service clinical trial solutions via our diverse and complementary strategic partnerships. From protocol consulting to full service clinical trial management and everything in between, SDC is The Right Fit For You.
